

## Kam

Kam has been seeing Tim in her year and is afraid that his parents might find out. At first he thought about telling mum and dad, but he doesn't really get on with them these days as they always shout at him for the clothes he likes and his friendship group, and he is not allowed out much anyone. Tim text last night and his dad saw the messages. He started shouting out him, asking who Tim was. When he didn't answer, he shook him and said he was stupid and shameful. Kam is afraid to go home.

## Tina

Tina had an argument with her mum last night. She had been trying to decide which college to go for her A Levels but her mum had seen what she was doing and told her that there was no point as she would be married next year anyway. Her mum had shown Tina a photo of a man some months before and mentioned that he was going to be the one for Tina but she thought that her mum was joking. Tina told her mum she wasn't interested in getting married, but her mum had said that it wasn't up to her, it had already been decided. Her mum said that Tina wouldn't want to know what would happen to her if she didn't do what she was told.
